## Part B – Program

Getting Started with Tableau and Building Basic Visualizations

### a) Connect to a CSV dataset and explore the Tableau interface

The screenshot displays the Tableau interface for connecting to a CSV dataset. On the left, the 'Connections' pane shows 'startup\_funding' as a 'Text file'. Below it, the 'Files' pane lists 'startup\_funding.csv'. The main workspace shows the 'startup\_funding.csv' dataset with 10 fields and 3044 rows. A preview of the data is visible on the right, showing columns for 'Sr No', 'Date dd/mm/yyyy', 'Startup Name', 'Industry Vertical', and 'Sut'.

| Sr No | Date dd/mm/yyyy | Startup Name                 | Industry Vertical | Sut  |

## c) Convert fields between discrete and continuous and observe changes

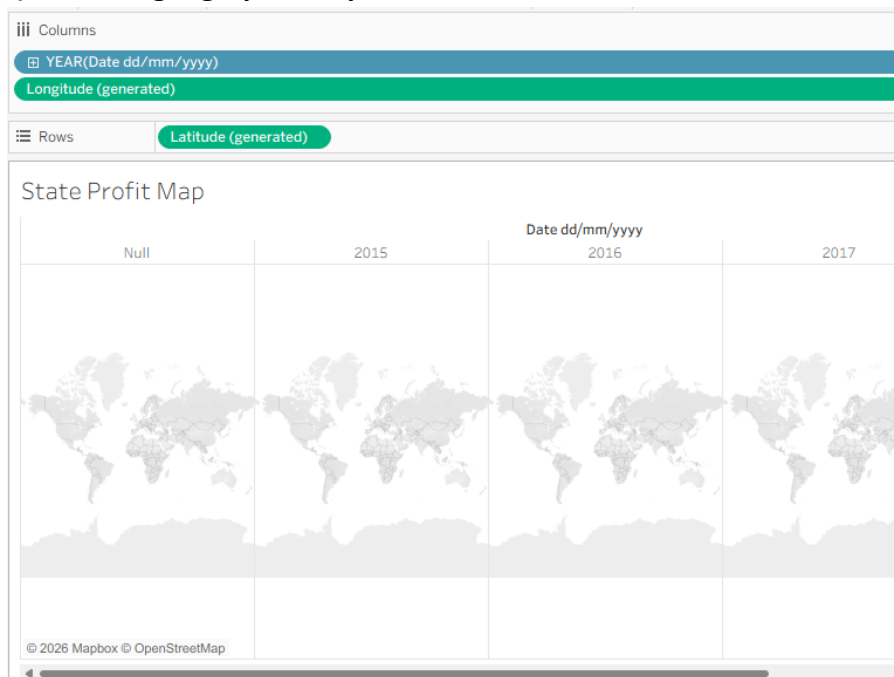

### d) Create and customize a basic bar chart

**e) Build a line chart for time-series analysis**

**f) Create a geographic map visualization**

**g) Combine multiple charts into a simple interactive dashboard**
